All Things PG website - public pricing references

Planning aid | October 26, 2026 | USD unless provider price is shown in local currency | estimates, not quotes

Suggested planning range for the first production release: $60,000-$90,000. This is a scope-based estimate for a searchable content platform and expert review-to-publish workflow, not a vendor quote.

SCOPE	PLANNING RANGE	WHAT IT COVERS	BASIS / NOTES
1. Informational website Refresh / migration	**$8,000-$40,000**	Public pages, responsive redesign, accessibility basics, standard CMS or static publishing, selected content migration.	Published nonprofit/agency ranges: brochure site $8k-$25k; redesign $9k-$40k. A smaller static refresh may cost less if ATPG supplies content and handles some work.
2. Searchable website Articles + provider directory	**$25,000-$50,000**	Structured content, searchable articles and provider listings, staff editing tools, filters, and migration of existing material.	Working estimate for custom functionality beyond a brochure site. Final price depends on content types, records, search behavior, and migration quality.
3. Curated content platform First production release	**$50,000-$100,000** **Planning range: $60k-$90k**	Database-backed CMS; staging; clinician review and approval; publish workflow; content history; search; migration; QA; launch and training.	Planning placeholder based on the described core scope. Actual estimate requires a written scope and vendor proposals.
4. Expanded portal vision Phased total	**$100,000-$175,000+**	Adds tailored patient/caregiver/provider experiences, accounts, permissions, richer workflows, and future integrations.	Broad planning estimate. Define first release and later phases separately. Identifiable health data or clinical functions materially change scope and cost.

Worldwide agency-rate snapshot: US / Canada / Australia $100-$149/hour; Poland $50-$99; Mexico / Philippines / Spain / Ukraine $25-$49; India under $25. Rates are not project quotes; compare scope, QA, support, ownership, and communication.

Named providers with public pricing - examples, not endorsements

PROVIDER / REGION	CATEGORY / POSTED PRICE	FIT FOR ATPG
Chris Heidlebaugh - Colorado Web Impressions United States	Solo provider; low-cost nonprofit brochure sites. $1,850 for 4 pages; $2,750 for 10; $5,950 for up to 50. First-year hosting and SSL included.	Good benchmark for informational pages. Not priced for custom search, approval workflows, or portals. Pricing
Socialectric UK; serves nonprofits worldwide	Fixed-price charity specialist. £3,500 for up to 5 pages; £5,000 bespoke; care plan £120/month.	Accessible small charity site; useful low-cost baseline, not the full ATPG platform. Pricing
Marzipan Australia	Boutique nonprofit practice. From A$5,000 + GST; published ranges: A$5k-A$9k simple, A$9k-A$18k mid-complexity, A$18k+ complex.	Potential fit for accessibility and directory work; confirm custom review workflow in a quote. Service / pricing guide
Sutter Group United States	Nonprofit / association agency. $25k-$45k standard sites; $50k-$125k+ for large content, membership, portals, or heavier migration.	Closest posted scope tier to a professionally delivered portal-and-migration program. Pricing

Planning next step: Confirm the amount allocated to website enhancements, then scope and fund the first production release separately from later portal features. Keep hosting, maintenance, content writing, and ongoing clinical review as separate line items. ATPG should own its domain, source code, hosting accounts, database, and backups.
